HB2226 HD2 SD2 CD1 (CCR 171-12)
RELATING TO AN AUTOMATED VICTIM NOTIFICATION SYSTEM.
Establishes provisions relating to an automated victim information and notification system. Requires the department of public safety to establish a statewide automated victim information and notification system to automatically notify a registered victim or concerned member of the community of the status of the offender. Requires the prosecuting agency to notify the victim of their right to register and makes the victim responsible for registering. Requires the attorney general, the chiefs of police, and the prosecuting attorneys to cooperate in establishing and maintaining the system. Establishes the automated victim information and notification system special fund administered by the department to be used for the system, including specified limits and prohibitions. Establishes an automated victim information and notification system governance committee permitted to advise the department on specified issues. Provides limited civil and criminal liability for members of the committee acting in good faith and within the scope of their duties but not where the member acts with gross negligence, willful and wanton misconduct, or intentional misconduct. -- Requires the department to continue to operate the statewide automated victim information and notification system pursuant to the funding structure under which it operated on June 30, 2012, which may include the use of federal funds, until such time as the automated victim information and notification system special fund has accumulated sufficient moneys to carry out the purposes of the act. -- Appropriation out of the special fund; provided that the funds shall be made available upon the accumulation of sufficient moneys in the automated victim information and notification system special fund to carry out the purposes of the act. DESCRIPT

HB1464 HD3 SD2 CD1 (CCR 176)
RELATING TO ENERGY RESOURCES.

Amends provisions relating to public utilities commission law. Provides that beginning January 1, 2015, electrical energy savings shall not include customer sited grid connected renewable energy systems. Redefines renewable energy to include ocean thermal energy conversion and other solid waste. Requires electric utility company that sells electricity for consumption to establish a renewable portfolio standard of 25 per cent of its net electricity sales by December 31, 2020, and 40 per cent of its net electricity sales by December 31, 2030. Requires that prior to January 1, 2015, at least 50 per cent of renewable portfolio standards be met and after December 31, 2014, the entire renewable portfolio standards be met by electrical generation from renewable energy sources and beginning January 1, 2015, electrical energy savings shall not count toward renewable energy portfolio standards. Requires the commission to evaluate the renewable portfolio standards every 5 years, revise the standard, and determine if the standards established remain effective and achievable. Report to the legislature every 5 years. -- Subject to approval from the governor, requires the energy resources coordinator to assist public and private agencies in implementing energy conservation and efficiency programs, the development of indigenous energy resources; coordinate the State's energy programs with those of the federal government; develop programs to encourage private and public exploration, research, and development of indigenous energy resources; serve as consultant to the governor, public agencies and private industry on energy related matters; review proposed state actions that the coordinator finds to have significant effect on the State's energy objectives and report to the governor their effect on the energy program; formulate a systematic process; develop and recommend incentives, plans, and programs; assist public and private agencies in identifying utility transmission projects or infrastructure required to accommodate and facilitate the development of renewable energy resources; assist the public and private agencies, in coordination with the department of budget and finance in accessing the use of revenue bonds; develop the criteria or requirements for identifying and qualifying specific transmission projects and infrastructure that are critical to the development of renewable energy resources; and develop and maintain a comprehensive and systematic quantitative and qualitative capacity to analyze the status of energy resources, systems, and markets. -- Amends provisions relating to
renewable energy facilitator; establishment; duties. Requires the renewable energy facilitator to facilitate the efficient permitting of renewable energy project, which include land parcel on which the facility is situated, any renewable energy production structure or equipment, any energy transmission lines from the facility to a public utility's electricity system, and any on site infrastructure for the production of electricity or biofuel from the renewable energy site. Redefines renewable energy facility or facility to include electricity production facilities with capacities between 5 and 199 megawatts of electricity and a biofuel production facility with a capacity to produce 1 million gallons or more annually may apply to the coordinator for designation as renewable energy facility. Amends provisions relating to permit plan application; coordinator; fee; pre application conference. Provides that if the coordinator has given at least 30 written notice stating that the permit plan application process is not approved or denied within 12 months, if no further processing and action are reported by the permitting agency within 5 months following the end of the 30 day agency report period, the coordinator may deem the permit approved. Requires the permitting agency to report identifying diligent measures. Appropriation to the renewable energy facility siting special fund. -- Requires the public utilities commission to establish energy efficiency portfolio standards designed to achieve 4,300 gigawatts hours of electricity use reductions statewide by 2030 and to consider the impact of renewable energy substitutions. Requires the commission to establish incentives and penalties based on performance in achieving the energy efficiency portfolio standards. Report to the legislature every 5 years. -- Establishes provisions relating to public buildings; benchmarks; retro commissioning guidelines; energy savings performance contracts. Requires state department with responsibilities for the design and construction of public buildings and facilities to benchmark every existing public building that is either larger than 5000 square feet or uses more than 8000 kilowatt hours of electricity or energy per year and to use the benchmark as a basis in determining the State's investment in improving the efficiency of its own building stock. Requires public building to be retro commissioned not less than every 5 years and requires the energy resources coordinator to establish retro commissioning guidelines by January 1, 2010. Allows the department to enter into energy savings performance contracts with a 3rd party to cover the capital costs of energy efficiency measures and distributed generation. -- Establishes provisions relating to energy efficiency consumer information in sale or lease of real property. Provides that prior to the sale or leasing of property, requires property owners and lessors to provide utility bills for the most recent 3 month period in which the property was occupied. -- Establishes provisions relating to building energy efficiency revolving loan fund administered by the department of business, economic development and tourism to provide low or no interest loans or other authorized financial assistance to eligible public, private, and nonprofit borrowers for making energy efficiency improvements in buildings; and to cover administrative and legal cost of fund management and management associated with individual loans. Allows the department to contract with other public or private entities for the provisions of all or a portion of the
services necessary for the administration and implementation of the loan fund program and set fees or charges for fund management and technical site assistance or establish subaccounts within the fund. -- Amends provisions relating to solar water heater system required for new single family residence. Prohibits a building permit to be issued for a new single family dwelling that does not include a solar water heater system that meets standards and a variance application to only be accepted if submitted by an architect or mechanical engineer licensed. Requires the energy resources coordinator to publicize all applications for a variance within 7 days after receipt of the application and the disposition of all variance applications for a variance within 7 days of the determination. -- Amends provisions relating to renewable energy technologies; income tax credit. Changes the credit to be for solar energy systems and wind powered energy systems with a cap amount. -- Amends provisions relating to public benefits fee administrator. Provides that all money transferred to the 3rd party administrator to be comprised solely of public benefit fees collected or from funds provided by the federal government or by private funding sources. -- Amends provisions relating to objectives and policies for facility systems energy. Provides that planning for the State’s facility systems to include diversification and short and long term provision of adequate, reasonable priced, and dependable energy services to accommodate demand; and promote transportation energy efficiency. -- HB1464 CD1

3O_TEXT

BE IT RESOLVED by the House of Representatives of the Twenty-fourth Legislature of the State of Hawaii, Regular Session of 2007, that to form a more perfect world, establish justice, ensure domestic and international tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish the following recommendations by resolution to the following entities and organizations, on behalf of the people of Darfur, who have suffered for decades under the shadow of famine, warfare, and strife:

(1) To the United Nations Security Council (UNSC), to introduce and pass a resolution that:

(a) Condemns the violations of international humanitarian law committed by all parties in the conflict in Darfur, particularly the indiscriminate targeting of civilians and the obstruction of humanitarian assistance by the government;

(b) Calls for internationally facilitated political negotiations between government and rebels in Darfur, the initial aim of which would be an internationally monitored ceasefire;

(c) Supports the ongoing humanitarian diplomacy of the Under Secretary General for Humanitarian Affairs, and the Special Envoy for Humanitarian Affairs in Sudan;

(d) Urges swift conclusion of the Inter Governmental Authority on Development (IGAD) peace talks and indicates a willingness to support a fully comprehensive government / Sudan People’s Liberation Army (SPLA) peace agreement; and

(e) Mandates a United Nations (UN) enforced No Fly Zone (NFZ) over
Darfur for the purpose of protecting humanitarian assistance flights and preventing further air strikes against Darfur inhabitants;

(2) To the United Nations High Commissioner for Refugees: ensure that refugees and internally displaced persons (IDPs) can return to their original villages and towns and coordinate international funding and assistance for their repatriation and resettlement;

(3) To the European Union: sponsor and provide full logistical and personnel support, including both manpower and units, for the full implementation of a UNSC mandated NFZ over Darfur;

(4) To the Government of Sudan:
   (a) Commit to internationally facilitated political negotiations with the Darfur rebels, the initial aim of which would be an internationally monitored ceasefire;
   (b) Order an immediate end to attacks by government forces and militias on civilians and civilian targets in Darfur;
   (c) Submit to a UN NFZ over Darfur;
   (d) Cease all assistance to the Janjaweed and other militias, begin a transparent peace process aimed at disarming them, and prosecute those who continue to attack civilians;
   (e) Order government security forces to protect civilians against armed groups;
   (f) Allow full humanitarian access to the affected populations for the delivery of emergency relief and reconstruction assistance and accept international observation of the use of that relief and assistance;
   (g) Ensure the safe return of villagers displaced by the conflict to their original locations and assist them in rebuilding their villages;
   (h) Negotiate establishment of a Neutral Resettlement and Claims Commission composed of representatives of the government, the Darfur rebels and civil society representatives known for their integrity, chaired by a UN representative, and with a mandate to:
      (i) Record criminal complaints against groups or individuals for injuries, wrongful deaths, and material losses such as livestock and household and commercial goods looted;
      (ii) Create mechanisms for restitution, compensation, and investigation of charges by victims; and
      (iii) Collaborate with investigations by responsible 3rd parties such as the Civilian Protection Monitoring Team (CPMT) into violations of international law; and
   (i) Allow the CPMT to begin immediately investigating allegations of attacks against civilians in Darfur;

(5) To the Janjaweed Militia: cease all attacks on civilian targets and respect international humanitarian law;

(6) To the SLA and JEM:
   (a) Commit to internationally facilitated political negotiations with the government, the initial aim of which would be an internationally monitored ceasefire; and
   (b) Allow full humanitarian access to the affected populations for the delivery of emergency relief and reconstruction assistance; and
(7) To the SPLA: accept the link between the 2 conflicts and help in efforts to promote a peaceful settlement in Darfur while negotiating in good faith the remaining issues at the IGAD peace talks; and

BE IT FURTHER RESOLVED that this body extends its deepest condolences to the families of the bold, courageous, and innocent who have lost their lives in the ongoing crisis in Darfur. -- HR0022 HD1
